***8.2% better light transmission** than the leading competitor

***28.6% greater tear strength** than 9X9 conventional offerings

INNOVATION AT IT'S BEST

Not only is ABC vertically intergrated, but all our products are made in the USA. ABC delivers valuable products that offer sustainable protection from the environmental elements. This comes in the form of superior strength, maximum sunlight to pass through while keeping your livestock safe from unfavorable environmental factors.

THE AGRI-TEX™ ADVANTAGE

- 28.6% greater tear strength than other brands
- 8.2% better light transmission than leading competitors
- UV-stabilized to withstand constant exposure to direct sunlight
- Excellent abrasion resistance from daily wear & tear
- Weldable composition for heavy duty use
- Extremely flexible to store and fold for your convenience
- Easily collapsible
- Simple to repair
- Made in the USA

As an added value, Agri-Tex™ offers our tunnel curtains in two different styles, customizable to fit your design specifications. For more information and for additional product options, please contact your sales representative.
