

Duravider RS

14 oz. Heavy-Duty,
RipStop-Reinforced, PVC
Tri-Laminate

RIPSTOP-REINFORCED, COST-EFFECTIVE,
DEDICATED INDUSTRIAL CURTAIN FABRIC

- RipStop fabric reduces lifecycle costs by allowing for repair, rather than replacement, of damaged curtains. The sequentially staggered yarn prevents small snags from becoming major tears. The affected area can be easily repaired with a simple, inexpensive patch kit.
- Rugged curtain construction with durable polyester yarns adds another layer of protection without increasing overall fabric weight
- Meets NFPA701 Method 2 standards

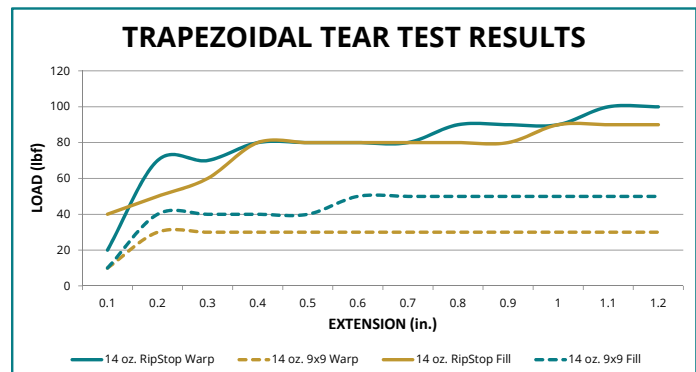

FABRIC FEATURES

- Tear and abrasion resistant
- UV stabilized
- Formulated with mold and mildew inhibitors
- Weldable composition
- Made in the U.S.A.
- NAFTA Compliant

9x9 RIPSTOP SCRIM

THE RIPSTOP ADVANTAGE

APPLICATIONS

- Industrial Manufacturing & Assembly
- Paint & Powder Coating
- Rubber & Plastics Fabricating
- Woodworking
- Warehousing
- Aircraft Hangers

FABRIC SPECIFICATIONS

Weight	14 oz./yd. ² (475 g/m ²)
Roll Width	61" (155 cm) standard. Larger widths available. Contact for details.
Temperature Range	-20° to 180° F (-29° to 82° C)
Scrim Count	9 x 9 RS
Tear, Trap - Average (lbs.) (ASTM D751)	W = 75, F = 65
Tensile, Grab - Average (lbs.) (ASTM D751)	W = 270, F = 240
Adhesion - Average (lbs.) (ASTM D751)	W = 30, F = 30
Standard Colors:	Gray, Black, Yellow, White, Blue, Green, Red <i>Custom colors available. Minimum purchase required.</i>
