

Returnable  
Packaging Fabric

**Packa-Tex™**  
FABRICS

ABC Industries, Inc. has expanded its Packa-Tex™ returnable packaging fabric line to offer you the convenience of a single-source solution for all of your dunnage needs.

The Packa-Tex™ line now includes:

- Standard Pouch Fabrics
- Colored Pouch Fabrics
- Clear Curtain Fabrics
- Brushed Tricot Class-A Fabrics
- Tyvek®\*\* Class-A Fabric
- Headliner Fabric

ABC laminated fabrics provide a soft, flexible method of product transport for automotive parts, postal packages, glassware, and other fragile components. Returnable packaging made with Packa-Tex™ fabric is easily cleaned, conforms to virtually any product shape, provides protection from hard or abrasive surfaces, and is far more cost effective than disposable packaging products. Choose the durability, selection, and quality that only ABC Industries' Packa-Tex™ fabrics can offer the returnable packaging industry.

## STANDARD POUCH FABRIC

ABC's pouch fabric features a noticeably softer hand for easier sewing and a gentler feel for the end user.

## About ABC

The story of ABC Industries is one of product evolution and prosperity since its humble beginnings in 1926. Industry trends and new technologies have guided ABC along the path of innovation to provide its customers with premium products and outstanding service. What began with a single product, jute brattice cloth, has transformed into a diverse line of industrial textile fabrics and industrial ventilation products. Today, ABC's high quality industrial textile fabrics are recognized throughout North America in many diverse industries. In addition, ABC is a leading supplier of ventilation products to mining, tunneling, and industrial markets around the world.
